The background of the entire page is a light gray color with a pattern of white-outlined hexagons of various sizes. Some hexagons are isolated, while others are connected by thin white lines, creating a molecular or network-like structure. The hexagons are distributed across the entire page, with a higher concentration on the left side.

ASEA®

NOW IS ***your time***

What if there were an innovation in wellness so groundbreaking that it actually changed the way we view the human body? A breakthrough impactful enough to affect human health at its foundation? A discovery so universal that it had the potential to change millions of lives all over the world?

Would you want to find out more about it and get involved? If so, you need to know about a remarkable company called ASEA®.

THE SCIENCE OF *redox signaling*

Understanding the power of this breakthrough means finding out about a process going on inside all of us. It's called redox signaling, and if you've never heard of it, you're not alone. Most people haven't, even though it's going on in your own body, right this very minute.

Redox signaling molecules are biological messengers that help cellular functions. So with such a vital role in human health, it's no surprise that redox signaling is at the forefront of medical research. In fact, more than 30,000 peer-reviewed papers have been written about it—there is even a scientific journal dedicated to its study.

A CATEGORY, CREATED

Because age, stress, and environmental factors cause a natural decline in cellular communication, creating a supplement that could balance redox signaling molecules would have a profound impact on supporting a healthy lifestyle.*

Decades of laboratory testing and millions of research dollars led to the discovery that is now the basis of a breakthrough product technology that became the basis for ASEA® REDOX, a pristine solution that delivers active redox signaling molecules, RENU28®, a revitalizing whole-body skin gel, and RENUAdvanced® Intensive Redox Serum, an ultra-concentrated blend that visibly reduces the appearance of lines and wrinkles.

Now there's a way to support the balance of your own redox signaling molecules.*

This patented process is revolutionizing the way people think about health and wellness—and it helps to supplement your own supply of redox signaling molecules, boosting functions of the body.*

ASEA isn't just *in* a leading health category. It created one.

ASEA's redox-based innovations have changed the landscape of the wellness industry.

ASEA® is the first company to bring a redox signaling supplement to market.

BREAKTHROUGH *times two*

In a market that's overloaded with products that help you look and feel better, ASEA® rises to the top. How?

By being different.

ASEA® does it in not one, but two categories by bringing revolutionary redox signaling products to market. This breakthrough puts ASEA in a class all its own.

ASEA REDOX supplements the exact kind of redox signaling molecules you create yourself, for supporting good health.*

RENU28® Revitalizing Redox Gel is not another face cream. It's 90 mL of skin-priming, age-fighting, cellular-rejuvenating gel for your whole body.

RENUAdvanced® Intensive Redox Serum delivers ultra-concentrated redox signaling molecules to specific areas of concern to help counter the visible effects of aging. It's been shown to reduce the appearance of under-eye fine lines and crow's feet within 30 minutes.

Both RENU28 and Intensive Redox Serum are available as part of the complete RENUAdvanced Skin & Body Care system.

This is the power of ASEA's redox signaling technology.

ASEA produces its one-of-a-kind products, ASEA REDOX Cell Signaling Supplement and RENU28, in an FDA-registered, NSF-certified facility, and they are redox certified by a prestigious third-party lab.

OUTSTANDING OPPORTUNITY

If hearing about the amazing health potential of redox supplementation has you excited, imagine the business potential of the company that pioneered it. Being involved with ASEA®—the only company with a redox supplement—can impact more than just your health; it can impact your financial future.

Starting an ASEA business can support you in your financial goals while giving you more control of your time. More than 70% of people who start their own businesses list a common top reason for doing it: being their own boss. Sounds good, doesn't it?

The standard boss-employee paradigm is making way for the demand to work from home. Not just because people need control over how they earn their money, but how they manage their time to seek more earning potential as well.

ASEA® offers an opportunity for you to take part in the largest industry in the world, wellness—an industry that 18.2 million people are already a part of. You have an opportunity to leverage two massive mega-trends: the global shift toward embracing natural health and wellness solutions and the growing demand for the lifestyle freedom of a home-based business.

It's simple to get started. With a low-risk, low-cost entry point, you gain an immense opportunity to create additional income, without the headaches of traditional startups. You'll never have to worry about inventory, warehousing, employees, or payroll.

The ASEA® opportunity allows you to weave your business around your busy schedule.

INCOME YOUR WAY

If you're like most people, you're used to relying on a regular paycheck from an employer. But that norm is becoming less and less normal as more and more people are looking for—and creating—multiple income streams.

ASEA's generous compensation plan gives you multiple ways to earn. It's a great way to put your residual income plan into place, relying on ASEA's remarkably high retention rate, more than triple the 15–20% industry average.

At every level of ASEA's compensation plan, you can bring in extra income, from a few hundred to a few thousand dollars a month. You can access the average commissions ASEA® associates earn at ASEAGlobal.com.

The income disclosure statement and chart of earnings are shown on the aseaglobal.com/opportunity website.

Tens of thousands of ASEA® associates around the world have found success creating additional income to support their financial goals.

The ASEA compensation plan has also supported and rewarded individuals who have committed themselves full-time to business-building, and as a result, have achieved financial independence. ASEA has even created elite Million-Dollar and \$10 Million earners clubs.

The customer base is unlimited, and the powerful, generous commission and bonus structure rewards associates every step of the way.
